“Restore the Shore” Program
2017-18

September, 2017

Dear HCOLA and Lake Association Member,

Attached is the Order Form for Trees and Shrubs through HCOLA’s “Restore the Shore” program for May 2018 delivery.

- Please order a minimum of 5 plants of a kind. Prices quoted on order form are per bundle of 5.
- Make checks payable to YOUR Lake Association.
- Give your order and payment to YOUR Lake Association’s “Restore the Shore” Representative or President.
- Orders for 2018 delivery are **DUE October 23, 2017**. Please get your order to your lakes RTS Coordinator early.
- Trees and shrubs will be ready for pick-up at the HC Fairgrounds around the first week of May, 2018. Date is weather dependent. You will be contacted when the trees will be ready for pick-up. Final delivery date will be posted on our website (<http://www.hubbardcolamn.org>).

Please consider planting more appropriate trees and shrubs in the lakeshore buffer zone on your property. This will help to stave off the runoff of pollutants into your lake and prevent lakeshore erosion.

Thank you for your interest and order in advance.

Theora Goodrich
HCOLA “Restore the Shore” Coordinator
